WHAT IS VULA VISION?

Rapid visual acuity screening test conducted on a smartphone or tablet. In partnership with Vula Mobile the app is integrated with any hearX clinical solution and the hearX mHealth Studio secure data management and reporting platform.

USE VULA VISION FOR CLINICAL SCREENINGS

Ideal for vision screenings in hospitals, private practices, centres and clinics.

SCHOOL OR WORKPLACE SCREENINGS

Affordable in-house vision screenings at schools or workplaces.

COMMUNITY SCREENINGS

Accurate vision screenings in community-based contexts that can be facilitated by minimally trained people.

BENEFITS & FEATURES

QUICK AND EASY-TO-USE

User-friendly interface that provides screening results in less than 2 minutes.

COST-EFFECTIVE

Accurate screenings at a fraction of the cost.

INTEGRATED DATA MANAGEMENT

Centralised data, patient and facility management, through the secure mHealth Studio Cloud platform.

LIGHT PERCEPTION

Screening automatically continues to light perception screening, if the patient is unable to complete the acuity screening.

AVAILABLE OFFLINE

Once installed, the app is available offline, enabling use in remote and unserved areas.

CLINICALLY-VALIDATED

Validated against several other visual acuity screenings.
